Christina:

Can you please approve this **RUSH** text search for the 'special' application 10/634,441? Thanks.

TO: STIC-Biotech/ChemLib

Please ask **Ms. Beverly Shears** to perform this search.

Please perform a text search for the following claim. Please include an inventors' name search for: Boris Skurkovich and Simon Skurkovich.

Claim 1. A method of treating rejection of a corneal transplant (graft) in a mammal or human said method comprising administering to an eye of said mammal or human having said transplant a composition comprising an antibody to tumor necrosis factor (TNF) alpha.

Thanks.
